Lumiere Light Therapie system review

We are all seeing the rising popularity of noninvasive cosmetic procedures and that is why a treatment like the Lumiere Light Therapie system is perfect because it counteracts the effects of aging with just a 20-minute spa treatment. And since a [visit to a plastic surgeon](#) is not needed, it is much more affordable. A spa or a salon can provide the [treatment](#).

This procedure is a comfortable alternative to the more aggressive and invasive [facial rejuvenation](#) techniques such as [microdermabrasion](#), laser and chemical peels that can often be painful and cause initial redness and swelling, according to Anthony Case, President of Lumiere Light Therapie. "Efficient light therapy is all-natural anti-aging and is completely non-invasive, non-thermal, and non-laser. In fact, the FDA review of Lumiere Light Therapie's process declared it 'poses no risk' to clients," says Case.

Lumiere Light Therapie's narrow band LED -- light emitting diode -- stimulates skin cells to produce collagen and elastin, important cellular components of [younger looking and feeling skin](#). The device works in concert with specially formulated topical skincare products to help clear and soothe problematic skin.

It evens out skin tone and texture, [lightens age spots, sun spots and dark circles](#). It also diminishes crow's feet and tightens thin, sagging skin to remove fine lines and reduce wrinkles.
